SELLING BY PHONE
Among the nevel uses made of the
new transcentinental telephone between the United States and England
was that by a middle western manireturner of automobile horns. To close
a sale in London, he mounted a new
two-tone horn near, the telephone and
tent a sample tool arross the Atlantic.
The madeal sound was clearly heard
by the customer "000 miles away.

The high cost of cheap oil

In's a funny quirk in human nature that people hangle over the price of a quart of motor-oil. Verif they were able to save the entire yearly cost of oil it would amount to only a few dollars, while the cost of repairs caused by the cheap oils they buy often runs into bundreds of dollars.

Here's why cheap oils often fail-

Your motor, when running is constantly threatened by metal-scorching heat—by grinding friction. It's an oil's job to withstand that heat, to prevent raw metal from chaining against raw metal. Right there ordinated had, They wither and burn and breaking the state of the state of

Consequently, experienced drivers have learned to use only Veedol—the oil that gives the fighting "film of protection"—thin as tissue, staneth as tilk, taugh as start. The oil that is sested to withstand heat 100 degrees hotter than the hottest friction spot in your car.

Today, drive up to the dealer who displays the brange and black Veedol sign. Ask for Veedol by tame. If you drive a Ford, ask for Veedol Forzol.

Far, far in the Lead!

Is the place of the Daily Newspaper in the Advertising World

I F YOU were to come suddenly upon a tower that was over 9 miles high, you would certainly open your eyes in astonishment. If, however, you then learned that the tower was made up sheet. by the advertising of a single manufacturer during 1927, you would be utterly amazed.

But then—Truth is arranger than Fiction. The advertising of the Kellogg Company of Canada, London, Ont., for this year would make a tower just like this—a tower which, by the way, would be fifty Umes as high as the Woclworth Building.

But even more interesting is the fact that 90% of this tower would be built with thetes from the daily newspapers of Cando. Just think of it—8.12 miles cut of the 9 miles would be contributed by the daily

W HERE could be found any better

W HERE could be found any better proof of the leading place cocumbed by the daily newspapers in the advertising world of today?. The daily newspaper is a national institution and is vitally imperian. '2 the life of the nation. The daily newspapers will continue to merit your 'ullest confidence in the printed messages that appear in its allower.

Get the most out of life. Read the advertisements in your daily newspapers. They'll tell you how it can be done

"I have valued this farm \$1,000 less than I would if clean of this weed"

The actual evidence of loss in value of weed-infested form land is shown in the extract from the report of an inspector valuing a certain farm for loaning purposes.

"It is badly infested with sow thistle-as are all the farms in the neighborhood. I have valued \$1,000 less than I would if clean of this weed."

This \$1,000 represented 12% of the value of the farm. Many inspectors would discount the value to an even greater extent. What is your weed crop costing you? Fight weeds as your would fight fire. Help your neighbor—heip yourself.

Every occup.nt of land and every owner of unoccupied land is required to destroy all noxious weeds before their seeds ripen. Municipal co.ncilsaor-required todestroy all noxious weeds growing upon the highways.

The Department of Agriculture

TODAY'S THOUGHT ed people, because I think they

TEMPERATE ONTARIO

and proves that Ontario is in-reality study of these problems in the univer a temperate province. There is little study, would be potentially one of the to worry about when out of three milsple, less than twelve are discov be offered to afflicted humanity."

WAR MEMORIAL WAR in Internal by Proud of hav-ing two citizens with public spirit enough to offer to start a War Mem-orial Fund with donations of \$1000 cach. The erection of a fitting Memcich. The erection of a fitting Min-orial to our deed heres is a matter which has waited to long. That oily recited of medicine without input-its listed among the very, very few mentiopathies which have not al-verley isstanted their profile in the gal-net of the properties of the contractive con-tractive and paid the final final properties of the contractive and paid the final service of freedom in the war waves.

It is true that Belleville has a Soldiers' Memorial Hall, but that is sodiers' Memoral Hall, but that is atrictly a ultilitarian project which in time will revert to the city. It is good so far as it goes but we need something more, something of pure beauty which more, something of pure beauty which will call to the mind of every Canadian for all time the proud story of a

Surely Belleville has enough to respond to the lead given by Mr. R. J. Graham and Mr. H. W. Ackerman.

UTILITIES COMMISSION The special committee appointed by the city council to investigate the ades and dis-advantages of estab lishing a Public Utility Commission for Helleville have reported back in favor of such a commission, but the ouncil decided to leave the matter ser until after the summer holidays. This system is in operation in the

lority of the cities of Ontario an rally seems to work satisfactor mittee says that in most the cases investigated it appeared it the case investigated it appeared to give more efficient management and to produce better revenue than when the utilities were directly under the control of the inunicipal council. An other advantage is a continuity all policy which is not always accurace, where the city council, which changes occurred to the control of the control of

The System usually followed is it have two or four Public Utility Com-missioners elected for two year terms with half of the commission retiring each year. The Mayor, of gourse, is

with han to cach year. The Mayor, of aguine, ex-offici a member of the commission, which is the establishment of such a commission in Belleville would be an advantage could only by affectained by experience. There has been no particular complaint of the manage when the companion of the manage with such as the such as

/ in 1928 and 1927. It is possible that a commissioner elected specifically for this purpose might do better, but it would simply be a matter of electin

DENTAL EDUCATION The Carnegie Foundation for the Au-noement of Teaching mas issued an vancement of Teaching mas issued as: chansative report on the present state of dental education in the Unitee States and Canada. The survey, which has extended over the past five years was undertaken by Dr. William J. Gies, of Columbia university, who, at-ter visiting the 42 dental schools of the

United States and the five in Canada makes many constructive suggestion for the improvement of the systems a present in vegue. It is only of recent times that the important part
played by the teeth in the general
room. On the previous evening her health of the community has been real fiance ized. Oreat as have been the ad-

ADDED 1 2000 MILES 1400 MILES. FIRST PHOO MILES -Severe "Body" test of Marvelube "F" by Ford Owner

A GRUELLING test of Marvelube "F" was carried out last Year by Mr. Adolph Miller of Lacombe, Alberta,

A a year oy Mr. Adopth Miller of Lacombe, Alberta,
In the two months following the purchase of his Ford, Mr.
Miller was so pleased with the apparently "unbreakable"
quality of Marvelube "P" that he drove 4,500 miles without
changing oil more than once; adding a total of only 1½ quarts
during that time.

ourng max ame.

Admitting that he had violated the recognized laws of safe lubrication in not changing oil more frequently, Mr. Miller points to his record as a convincing test of the heat-resistance and wear-resistance qualities of Marvelube "F". Read Mr. Miller's interesting report:

"I did not change oil until I had covered 1,100 miles. The oil wa unbroken. I filled up again and ran 1,400 miles without renewir added a pint and later a quart. The car has run close to 2,000

duting your was user u was 4.500 miles on the first and second fillings, with the addition of one just and one quart.

"I consider it the best of lith at I have very pix into a car and I have been driving cars and handling tractors for 15 years or more.

This remarkable record is not given by Mr. Miller or quot Ans remarkation record is not given by an America quoted by us as an example of judicious practice—it is to be regarded purely as a "stunt." But it is a stunt that points so unmistakeably to the unbreakable "body" of Marvelube "F" as to merit the serious attention of every Ford owner.

With a crank-case change every 500 miles, there is satisfactory, trouble-free lubrication in the regular use of Marvelube "F."

Momen's News and Views ANOTHER APPROACH ON WILSON'S Advice to Girls By Annie Laurie

PETTING PROBLEM

EAR ANNE LAURIE:

I am cueaged to a young man whom I love, and he says he loves me. He has been away from me for a few months and his kiters of late are growing indifferent. I feel I cannot give him up. What would you advise me to do?

ANXIOUS.

ANXIOUS.

ANXIOUS: The surest way to lose your, flance is to show panie at his indifference. Ask him to come home for a visit. Perhaps a return to scener that are dear to you both may counterset the effects of your long senaration

It is our guarantee to you that we have signed a contract to use only genuine Alemite Lubricant.

We have done this to protect your interests as well as our own, because we know that the best lubricating system in the world is useless unleas, we use the proper quality of Lubricant.

Drive in and let us give you a 100% job.

BLUE'S SERVICE STATION

FRONT STREET (Next dear to Capital Theatre)

Lubricant

Make your farm pay bigger profits this year

The big problem on the farm today is to produce more at less cost. Farm surveys in Canada show that the largest item in the cost of producing a field crop is the labor of man and horse, amounting in some cases to as high as 50%.

The most effective means of reducing labor costs to a minimum is the adoption of economical, light weight tractor power and modern machinery which will result in the doubling or trebling of present crop production—with greater ease and timeliness.

In Canada today, over 17,000 Fordson owners can plow 5 to 8 acres daily, double die 15 to 25 acres, cultitude 15 to 25 acres, harrow up to :0 acres, cut 20 to 35 acres of grain and thresh 700 to 1100 bushels of wheat.

Reduce your labor costs the Fordson way and make your farm pay bigger profits this year.

Ask your Ford dealer for a copy of our new folder."Things You Should Know Before You Buy Your Tractor."

Poems Old And New

Land of glad to-morrow, Canada our own, Daughter of Britannia! Be thy glory known! Deeds of glowing valour Crowd thy story's page; Noble parts await thre On the world's new stage.

Shadows have departed,
Dark was yesterday;
Now a golden suarsize
Dawns upon thy way.
Forward then with Courage!
Onward to thy goal!
Olad be thy to-morrows
While the years unroll!

Improved Highways inspire the Improvement of Home and Farm

and Trees

Good roads in Ontario are promoting the beauty of the Province. They have inspired owners of homes and farms to improve the appearance of their proper-ties. New fences have been built, lawns have been made, trees and flowers planted, and homes and barns treated to plaint.

The appearance of whole neighborhoods has been transformed by the creation of these roadside beauty spots. They make Ontario a nicer place to

To those who have thus improved the property along the highways and given encouragement to others to do the same, the whole Province is indebted.

The Government is not unmindful of the public advantage of such improvements. It is ready to render substantial assistance to property owners in the planting and care of trees along the highways.

No Car should go on the Road unless it is in good Condition

It is usuafe to the occupants, and a menace to the control of the Check your brakes and steering gear often and replace parts worn or broken. Don't take a chance. Your car may fail you at a critical time.

Check your brakes and steering gear often and replace parts worn or briten. Don't lake a chance. Your parts worn or briten. Don't lake a chance. Your Keep your headlights adjusted. See that your lenses are according to law. The Motor Whiches Planch of british register and they are being enforced.

See Ontario from her Highways

Good roads will take you almost everywhere in old Ontario and far into the north country. norm country.

You will never see the Province fully till you travel it by automobile. Plan a vacation trip to parts you do not know. No Province or State has finer roads or better seckery.

or sectors. And get to know the people in other parts of Ontario, too. It will widen your vision to know what they are thinking of and what their ambitions are. Travel is a great educator. No other form of travel acquaints you so closely with the country through which you pass or the people who live there.

CHRYSLER Scores Again

GREAT NEW 62

Wathlett P. CHRYSLER and his engrees present today a new car — the great six-cylinder "62"—which carries the name Chrysler still more emphatically to the head and front of the procession of engineering and manufacturing progress, and gives the buyer higher quality and greater value than was ever before possible in its class.

The great new Chrysler "62" surpasses even its predecessor the "60", hailed heretofore as the finest piece of six-cylinder engineering and mechanism ever produced in its field.

It was conceived and executed in obedi-ence to the Chrysler conviction that the pioneer of new motoring principles and greater values must keep on piongering to deserve and hold the leadership the public confers on him.

The great new Chrysler "62" is deliber-arely designed to give so much more for the money invested than any other six in its price-class, that the shrewd buy-ing sense of Canadian buyers will bring realization that they simply cannot approach "62" value in any other cars. No one can see, or drive, or even read

New Chrysler "Red Head" Engine New Chryster Nea-nean Engine The Chryster "Nead Head" is the first engine scientifically designed to anticipate—with its rigid 7-bearing, counterbalanced cranishaft construction—the wide-spread utility of high-compression fucls. It offers in standard production, the fullest advantages of extra spread, acceleration and hill-climbing ability inhepotal time bodiern high-compression gas. the general specifications of the great new "62" without marveiing at the value which Chrysler Standardized Quality has packed into its appearance, its manufacture and its unapproached

Drive the great new "62" today. Any Chrysler dealer will gladly give you complete proof of its supreme value.

Totring Car, \$1505; Roadster (with rumble seat) \$1570; 2-door Sedan, \$1635; Coupe (with rumble seat) \$1770; 4-door Sedan, \$1770; Landau Sedan, \$1835; f. o. b. Windsor, Ont., including taxes and equipment (freight only to be added).

- on the care of the family Ford

IF the family Ford runs smoothly with a reasonable amount of care, most husbands are satisfied.

But wives — with careful eyes on the family budget—ask much more. Not only must the Ford run efficiently—it must also run economically.

run efficiently—it must also run economically. That is why thousands of women, who are care-ful buyers, always insist on Vecdol Forzol the proven economy oil for Fords. Made ecularity for Fords—Vecdol Forzol properly lubricates the Ford motor, resisting heat and friction. It correctly lubricates the Ford transmission bands, preventing costly chatter. In fact more than a million Ford owners have found that Vecdol Forzol gives these eight economies in operations:

"The 8 Economics of Vecdol Forzol"

Stopschatter—savesbands
 Gives 10 to 25% sading in gasoline
 Gives 10 to 25% saving in oil
 Reduce/satbon 10to 25%

When the mercury's rising and clothing is reduced to a minimum, don't make the mistake of trying to dispense with that one article which is always necessary—

THE FOUNDATION GARMENT

With the correct foundation—even if there's very little else beneath your frock—you'll look you' best, but with an un-satisfactory corset—or none at all—beware of what a really warm day can do to your clothes ppearance.

GO Years Ago—
Just try to imagine the average amount and kind of clothing worn by the modern woman in the summertime—but worn over a corset of 1867.

NOWADAYS — a lightweight, almost boneless GOSSARD Foundation Garment, made of some soft silk material gently moulds your figure into such slim, unbroken lines that less clothing may be worn, with far lovelier results both in apearance and comfort.

. It NEVER WAS SO EASY BEFORE TO BE COOL AND COMFORTABLE - THOUGH CORSETED

The GOSSARD LINE of BEAUTY

A Gossard Garment for Every Type

The most wonderful GOSEARD feature is the remarkably skilful designing of these garmenta, the perfect workmanship in every detail. Whether made of sain tricto, or mercerized elastic, boneless or lightly re-inforced each is the absolutely ideal garment for the particular figure it is intended to support.

COMPLETES - STEP . IN CORSETS

FRONT - LACED MODELS: Priced from \$2.50 to \$12.00

Our Expert Fitting Services

A very great deal depends upon the right choice of garment, and in having it fitted correctly. Our Graduate Correctere will be pleased to serve woman who has suffred disconfert for years, finds for the first time—and always afterward—perfect relaxation in a GOSSARD-FOUNDATION GAINLENT.

MAKE YOUR APPOINTMENT FOR A FITTING — IT WILL NOT OBLI-GATE YOU TO BUY.

Limited

What value a human being "Men are like figures; they acquire, their value from their position."

The value of your life runs up into tens of thousands of dollars and depends altogether on your position. It equals the sum of what you expect to earn throughout your life.

This intensitie of future can be made real by means of life insurance. You should make it real because Death bankrupts a life not adequately insured, and your family will suffer;

To protect your family the London Life grants insurance on three popular 'reduced premium' plans—the Jubilee, the Earning Power, the

For example, the rates are such that simply the interest on \$10,000 Victory Bonds would purchase from \$30,000 to \$44,000 life insurance at age 30, according to the plan selected to meet your needs.

Men appreciate low-initial-cost participating plans because they furnish full pro-tection without hampering

110 A Special Grade of For Smooth Operation of your Ford Engine Marvelube Motor Oil

> FORD CAR ... new model or old ... is an A1 transportation investment. As such it merits the best care you know how to give it. And there is nothing that plays a bigger part in the proper care of a Ford than correct lubrica-

> Marvelube "F" is a motor oil high in favor among all Ford owners who have tried it—over 100,000 Ford cars in Canada are to-day lubricated with this superior oil, which our engineers have developed as especially effective in protecting a Ford engine's bearing surfaces against heat and friction.

If you want real satisfaction in the daily operation n you want real satisfaction in the daily operation of your Ford, and the real economy which is represented by slow depreciation and highest possible re-sale value—give this matter of lubrication the attention it deserves. Careful examination of the lubrication facts will lead you straight to Marvelabe "F"

Put your Ford "on the efficiency basis" to-dayby draining the crank-case and filling with Marvelube "F"... IMPERIAL OIL LIMITED.

Advice to Girls

By Annie Laurie

The boy-friend I went about this when I was in the city has been corresponding with me ever since I left. He has asked to come down now to see me, and I have consented and invited him. But I have just found out that be is also going with another girl. He seems to care for me, but how gan I have him with me when perhaps how some consumer of the corresponding to the consumer of the

KOTEX

WHAT'S NEW

The brighter red tones in woollens revelve mention as promising candidate for winter wear; these all have a distinctly yellow east, just as the yellow that runs through most of the brown and tan ranges.

Lady Athlumney, who is an Austra-lian, is remarkable for har berie-taste in drass, and though not as rule an early tier, yet a short time ay the left London mysterlough at who mise in the morning and was not see again until dinner-time, when it fran plied that she had simply flow:

Paris, and back again, to have her is

TILLIE THE TOILER-

INTERESTING

QUOT A TIONS

That a sorrow's crown of sorrows.

In a sorrow's crown of sorrows.

Is remembering happier things.

Tempson.

Tennyson.

I have a room where into noon enters Save I myself alone:
There sits a bleased memory on a throught.
There my life centres.

I've wandered east, I've wandered

west.
Through many a weary way;
But never, never can forget
The love o' life's young day!
Motherwell,

How cruelly sweet are the echoes that start
When memory plays an old to
the heart.

"The Royal York" is the name chosen by President Beatty for the new Canadian Pacific hotel to be erected at Toronto. It associates the new hotel with the early history of that city.

of that city.

Canadian Parific Railway englecers, now busy with their pre-liminary survey of the projected railway to Chicustimi and the Lake St. John district, are at present studying the question of a terminus site.

A large party of professional men will leave for a tour of the, west over Canadian Pacific lines, on the third annual tour conducted under the auspices of the University of Montreal. The party will spend about two weeks in the Rockies.

The second regular journey to Canada of the Canadian Pacific steamship "Empress of Australia," will be distinguished by the pres-ence on board of that ship of the Prince of Wales and Permer Stan-ley Baldwin, of Great Britain.

Col. J. S. Dennis, chief commissioner of the Department of Colonization and Development, Canadian Pacific Railway, predicts a mothogen in the Colonization of Colonization of

Stomach PHILLIPS' Milk of Magnesia

Exterminate Weeds

Many million dollars worth of farm products are ruined annually by weeds. The loss in rental and sale value incurred by weed-infested farms is incalculable. The weed pestilence has become intolerable.

Exterminate weeds on every square foot of land on your own property, on unoccupied lots and farm lands, on every highway and lane, in city, town or country.

WARNING

Under the provisions of The Weed Con-trol Act 1927, now in force, the destruc-tion of noxious weeds is no longer optional. The destruction of noxious weeds is now compulsory.

Every occupant of land and every owner of unoccupied land is required to destroy all noxious weeds before their seeds ripon. Municipal councils are required to destroy all noxious weeds growing upon the highways. Let everyone co-operate to end the weed muisance.

HOPE FOR CHINA

Russian influences which have been be high the warfare. The section points of the world, "remark on fifted in N-tower to the communist influence has been centred in N-tower to the communist influence has been centred in N-tower to the world," remark on fifted in N-tower to the world, "remark on fifted in N-tower to the world," remark on fifted in N-tower to the world, "remark on the world," remark on the world, "re tred in Hankow, where the radical nationalists had formed a governmen which threatened for a time to become the controlling power in China. The more moderate leaders, however, have been able to hold their own, and, in some cases, to gain the ascendancy over the extremists, and the result is that the Cantonese are tired of the Russians, and are anxious to free them be another hard blow for the commun ist headquarters in Moseow, but it will give fresh hope that China will return to peaceful conditions, and will yet deapart from outside interference.

THE NEW CANAL

When it is completed the new Wel-land canal, the third to be dug across

\$2. the peninsula, will represent a triumph for Canadian engineering and contract ing and show the world that when it es to canal-building the Canadian people take accord place to none. The struction of the canal is a monumer fal undertaking in which every Cana-dian has a right to feel the utmo: 1 Financed by Canadian funds i't by Canadians it may be regarded as an almost exclusively native for its opening and the parsing of the first whaleback from Lake Eric to Univ | Renock embidden, once, at every |
Ontario, there should be organized | If feasifing, rise; if sleeping, wake ster demonstration which will greatness of the project which has been And they w opicied in their behalf.

PRICELESS RELICS
It will be a sity it the many relice of perfect the second of the sec

ue to those who will prepare for that celebration; but the notual articles meh as carriages and domestic uto in use in and before 1887, will be even more valuable, for the reason that by that time transportation will have been as revolutionized as they have been in the Canada prior to 1927, and they should be preserved.

POULTRY CONGRESS The Worlds Poultry congress will be spened in Ottawa on July 27 and wil

continue till the 3rd of August. This ii the third congress of the kind, the wo former having been held respective two former having been held respective by in Barcelona in 1924 and at The Hague in 1921. In both Spain and Holland the poultry industry enjoys a very high standard, and the holding of the congress in Canada this year is an

acknowledgment of the position which the Dominion has attained in the esti-mation of the world. As showing the importance of the poultry industry is value of the annual production of eggs and poultry is estimated at \$50,000,000 The average consumption of eggs is

The WOLVERINES are

By One of the Oldest American Builders

FOUR months ago, the Reo Motor Car Company announced the Reo Flying Cloud. Its instant acceptance by the public has been the outstanding feature of an otherwise colorless automobile season Now the Reo Motor Car Company announces the

Named for the strongest animal of its size in all the world, the Wolverine—substantially lower in price and somewhat smaller in size than the Reo Flying Cloud—will bring to an even wider field of motorists that nonesty of construction and sureness to performance for which Reo automobiles have always been known.

The Wolverine is small enough for easy handling and low operating costs—but no power, nor brawn beauty was sacrificed in making it smaller.

It's fast-fast on the getaway, fast on the open road and quick to stop.

Both its performance and its appearance will be a delight to those who, in the past, have looked in vain for some-thing decidedly superior in a moderate priced automobile. REO MOTOR CAR COMPANY . Lansing, Michigan

OPTOMETRY IT'S VALUE TO THE PUBLIC

BY J. A. MeFEE

OPTOMETRIST

Is there my way by which the Optenetriat can ensurine the public of the need of glasses?

No very direct method. If all children's eyes were examined on entering school many defects would be detected where they are not suspected,

What would he appear if ALL errors of vision received the affection of the Optenetrial's

tention of the Optometrist?

There would be an immediate and surprising increase in health and efficiency.

Drivers are most responsible and can do most to keep motor travel safe

Provincial highways have been made safe by their builders, Easy grades and curves have been established, guard rails have been erected at dangerous points, and a comprehensive system of warning signs has been set up. Counties have built their roads safe, too.

The containty increasing traffic is creating new problems of highway traffic control. Each new situation is carefully studied and taken care of in the interest of drivers and the public by yearly revisions of the law.

punic oy yearly revisions of the taw.

Yet no artificial regulation of traffic can be so effective as the natural co-operation of motor drivers seeking their own safety and wishing to extend courtey to others on the road. In their hands lies the most potent instrument for keeping the highways afec. On them rests the greatest responsibility.

A Dangerous Character on the Road

mobile which is not in good condition is a dangerous character on the road.

churacter on the road.

It is an outlaw, for The Highways Traffic Act provides penalties where lights are not properly adjusted or brakes or steering gear are out of order.

Glaring lights are against the law and an mennee to traffic. From the Motor Vehicles Branch of the Department may be obtained free a list of turns approved the properties of the properties and More first steer in order the in-banding.

Your first step in safety lies in having your ear in perfect condition when you go on the road. Then practice caution and courtesy as you use the road. Then increased appeal limits puts a new responsibility on you in this respect.

Follow the Roads and you will know Ontario*

The good roads belong to you and all other tax payers in the Province. Use them for you are paying for them.

Travel about the Province and see new scenes and know new people. Take your family along and let the children learn their most useful geography lesson in a practical way.

The Bread of Health

And Such Rich

THE happy highroad to Health—eat HOVIS Bread. The rich flavor tempts you to eat more, and the more you eat the better it is for you!

First, last and always, HÖVIS is strictly a health

But the same qualities that bring you extra nour-ishment and extra vitamines also bring you an extra flavor, which you will relish with the keenest

For 40 years HOVIS Bread has been the favorite

Now HōVIS is made in Canada—it should be on your table today and every day! Costs a little more-worth much more.

The word "HÖVIS" comes from two Latin words
"Howinis Vic"
and means "The Strength of Man."

HOVIS FLOUR is made by the millers of PURITY FLOUR

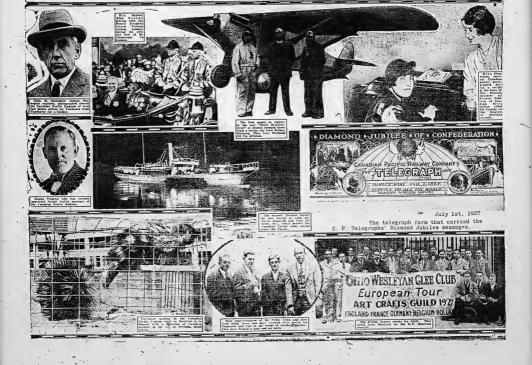

A product of WESTERN, CANADA FLOUR MULIS CO. LIMITED, Spreams, Merderal, Orison, Saint John Wigners, Calgary, Victoria

Often

a barrel of trouble

hides in a quart of Oil

OFTEN you watch cool gleaming oil poured into your crankcase. That glissening stream may mean—a sweet-running, repair-free motor—or, a barrel of trouble. Your motor, when running, is constantly Your motor, when running, is Constituted the threatened by metal-scorching heat—by grinding friction. It's an oil's job to fight off that heat, to prevent raw metal from gnashing against raw metal. Right there ordinary oils fail. They wither and burn under that terrific onslaught. Break-I downs and repair bills soon follow.

Small wonder, then, that thousands of motorists turn to Veedol, the oil that gives the "film of protection," libin at lisue, smooth as silk, lough as steet. The oil that is made to resist heat 100 degrees hotter than the hottest friction spot in your car!

Today, stop where you see a dealer displaying the orange and black Veedol sign. Ask for Veedol by name. If you drive a Ford, ask for Veedol Forzol. CROWN OIL COMPANY, LIMITED, · PAMILTON

A GENTLEMAN

ed to her ironical wit is the statement that very few ladies are gentlemen. The implication is that even the most refined women are still inclined to cat- Father, between Thy r tiness, nastiness, and a trivial mean-ness that is not noticed in gentlemen. As proof of this ascertion, it might be that is not noticed in gentlemen. I are the task of smoothing when tioned that Margot Acquith's re- and fashioning to a gentler form The

see of the female of the species presence on the remain of the species, planned, taken in Japan later and Japan one of what makes a agentleman, or More traight; this is full recompense
what is a gentleman. According to the
cholar, no man is a gentleman who is give The but, the graise that Thoi
wouldn't first. recrease, no man is a generating work of the Three bull, the prists that Thou containing to the society debutants a gentle-film hand and high heart for the more than the containing the win were the further state.

- The society and has at 1221 113,000 a — Dorotty Littlework, in the Commonweal, lower More than the commonweal, lower Week.

Christopher Marlow and that the form was a gentleman. Ondembry wrete that a gentleman was the chief work of a barder. Experies asserted that repose and cheerfulness were the badges of a gentleman. Berief spined that a gentleman was a generous marbor with a gentleman was a generous marbor with the control of the form of the control of the berief that region was the mort; gentleman that we work, but one of P. Soot. Thispershike characters prioric that a gentleman must know how to hold his loads.

Opinionis and definitions It is seen differ. Women today read dreek and Latin, can attend classes at the utbra-nity at least, have been known to have \$15,000 a year, have been devils, angels worn badges of repose and otherful-ness, been worked on by barbers, such beld their licker. By any such tests as these, women are in every sense as gentlemanly as men.

OTHER MEN'S THOUGHTS

on his release.

The substitution at the term that the component of the co

these training centres would not or a much better and a more employable amount better and a more employable amount and another hold general institutions of the old penal institution of the o peases of the "Fathers of Confeders Margot Asquith, wile of a normer; a administe, and if there is one patting principles and the same is in the first figure many who has a penchage for inclusion of the title of the picture for writing boods and anying things in the guidance of people in other countries. The product of the product of the product of the point of the countries are not the product of t what it represents,-Ottawa Cit

TODAY'S THOUGHT

to guide her.

LINE OF THE NORTH The trouble with most Canadians is that, in spite of the supposed vasiness of the process, we have not yet acqui-fid a, "good conceit" of ourselves or our country The great benefit conferred by the Diamond Jubilee celebration was that it began our education in this ect and showed us to one anoth

trapect and aboved us to one another has a pretty deem and Bleashie is, after all We have our produme but with what chee country would we to willing to trade brenshies? One draw-hack in many lines of endrawor has been that we have important our methods where we have been a strained out in one one aground. We have common the common than the common that the common than the common that the common than the common than the common than the common that the common than the common than the common than the common that the common than the common than the common than the common that the common than the common than the common than the common that the common than the common than the common than the common that the common than the common than the common than the common that the common than the common that the common that the common t on St. Swithin's day, of the value of March dust—wise sayings, perhaps, in other lands—whereas all the time we had proverbs at home that had real wisdom as related to this country. Out roow use the local river water for pow-er and navigation purposes only, they still say that he who drinks-Red River water once will drink it again; mean-ing thereby that he who has once come under the fascination of the prairies can never thereafter break ell. And at once we see that the came is true of the Fraser River,, the Ottawa, the St. Lawrence, the Miramichi: yes, and true also of the Copine, the Mackentie and the Yu-This spell of the Northland was e evident in the last few days when two ships left different Canad ian ports for Hudson Bay and Cana da's Arctic archipelago. The first one Jain ports of Principoles only and Section (As Arctic architeges, The first one at Musicape Bay Company ship sail, fair from Montrees, Ind on board & Rosana, Cultabelle hishop and an Avrilles, architectors. Both were returned fag to their Enkimo Bocks in the section of the Section Section of the Section Section of the Section Sectio posts in the archipelago, including the one at Bache Peninsula, the most northerly Government post in the

"Fate's Playthings".

To live with wife and little ones unprotected by Life Insurance is gambling with their future.

To leave a widow and children unprovided for as a result of such gambling makes them "Play-things of Fate." The wise, loving and thoughtful husband and father does not take these chances. He takes insurance and is sure. When he selects The London Life he secures this protection at lo For example:-

Suppose you are 35 years of age and secure a London Life Jubilee Policy for \$10,000 and take advantage of your sight, 5 years later, to change sight, Syearslater, tochange it to a Twenty Payment Life Policy. Your average actual cost for the 20 years —entirely apart from divi-dends—will be only \$2.79 per thousand dollars of insurance per year.

rure the henefit of the expe ience and suggestions of The London Life representative. De-
